ACADEMIC QUALIFICATION

2017 - (Present) Bachelors in Computer Science
Current I'm in Final Semester and Working on my final year project i.e., FYP-II. I will complete my degree in Spring 2021.

2017 Higher Secondary Certificate (HSC) Pre-Engineering Group (Math/Physics/Chemistry)
Passed HSC from the Karachi Intermediate Board in Science Group.

2015 Secondary School Certificate (SSC)
Passed Secondary school certificate examination from Karachi Matric Board in Science Group.

STATEMENT OF PROFESSIONAL EXPERIENCE

Organization: **Freelance** (May 15, 2015 – May 30, 2019)
Position title: **Self-Employed – Web Developer**
I have started my development at freelance. I met different peoples with different idea, which make me learn more. I did advancement in JavaScript and their Framework. Also I work in other languages to be in practice.

Organization: **Karachi Port Trust (KPT)** (Sep 02, 2018 – Oct 08, 2018)
Position title: **Intern – Web Developer**
It was a great experience while working in big organization. I met people with difference ideas and perspective. This help me a lot to develop myself and get ready to work with other skilled people out there.

Organization: **Connect International** (Jan 02, 2019 – Feb 15, 2019)
Position title: **Intern – Web Developer**
I learn lots of new thing which I love about in any job and the result was that I also had an experienced that how to work under the team which was a really great experience.

Organization:	**Efrotech Service** (March 15, 2019 – Nov 18, 2019)
Position title:	**Junior Developer**

It was a really great experience for me because this was the first time when I was being called by a software house for a job but the reason I left the job was the there was nothing to learn as I mentioned in the beginning that I love learning during job.

Organization:	**Algorack** (Dec 15, 2019 – Present)
Position title:	**Senior Developer**

The best working experience, I have ever examined because of the environment. I am glad to working with them, highly skilled persons. The best thing is that, my skills are improved with their guidance and support as a newbie. This sounds great to me that, I am still working with them, but now I have to move on for my betterment.

CONFERENCE ATTENDED

2019 International Conference on Data Science (ICDS)
I'm the Part of this conference as an organizer. The basic purpose to attend this conference is to know that how people think on data science and how they present their ideas.
